Game of observation and speed

Quick, hurry Mr. Plumber!

Who will be the fastest to get the water working again?

Age : from 6 years
Number of players : 2 to 6
Duration : 10 minutes

Game contents:

10 two-sided Circuit cards (2 levels of difficulty), 60 Pipe cards, and 6 Tool cards.

Object of the game

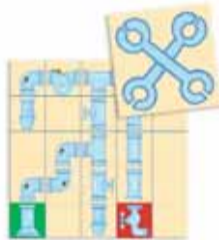

Be the first to make a water circuit.

Game procedure

The 60 Pipe cards are arranged in the centre of the table.

Game 1 (with teams of 2 players)

A player from each team takes a Circuit card to be made (same level for all teams) and does not show it to their teammate.

Players describe to their teammate, one by one, the cards that need to be found in order to piece together the circuit. (These explanations are only spoken!!).

Game 2 (individually for 1, 2 or 3 players)

Each player takes a Circuit card and puts it in front of them, face up.

They must find the Pipe cards that make up their circuit as quickly as possible.

Who wins?

When a player has placed the last card of their circuit, they scream: «GLOUGLOUGLOU!!».

The course is checked:

- If it is good, the winner takes a Tool card.
- If it is not good, the other team or player takes a Tool card.

The next game starts by drawing a new Circuit card, and so on...

The person that has the most Tool cards at the end of 5 games wins the round. If there is a tie, another game is played.
